Job Hazard Analysis: A Guide for Voluntary Compliance and Beyond presents a new and improved concept for Job Hazard Analysis (JHA) that guides the reader through the whole process of developing tools for identifying workplace hazards, creating systems that support hazard recognition, designing an effective JHA, and integrating a JHA based program into occupational safety and health management systems. The book goes beyond the traditional approach of focusing just on the sequence of steps and demonstrates how to integrate a risk assessment and behavioral component into the process by incorporating elements from Behavior-Related Safety and Six Sigma. This approach allows businesses to move from mere compliance to pro-active safety management. This book methodically develops the risk assessment basis needed for ANSI/AIHA Z10 and other safety and health management systems. It is supported by numerous real-life examples, end of chapter review questions, sample checklists, action plans and forms. There is a complete online solutions manual for instructors adopting the book in college and university occupational safety and health courses. This text is intended for lecturers and students in occupational safety and health courses as well as vocational and degree courses at community colleges and universities. Walk into Hinkle Fieldhouse, and you feel it--that palpable sense of history known as the Hinkle mystique. Indiana's basketball cathedral has stood in all its glory at Butler University since 1928. John Wooden, Oscar Robertson and Larry Bird played on its floor. Jesse Owens sprinted to a record at Hinkle, and athletes from around the globe have brought Olympic-level competition to crowds gathered under its steel arches. It was the setting for the climactic scene in Hoosiers, arguably the greatest sports movie ever made. It has hosted evangelists, ice shows, tennis matches, bike races and even roller derbies. Author Eric Angevine gets inside the paint in this complete Hinkle history, featuring archival photographs of the iconic structure and words from those who know it best.
