Development economics is a branch of economic study that focuses on improving fiscal, economic and social conditions in developing countries.

Development Economics Definition

Economic planning has some essential features: (a) There must be a centralised planning authority for preparing the plans and suggesting the means for their implementation. (b) Before framing the plan, the planning authority should undertake an accurate survey of the available resources (both existing and potential) and the essential needs of the country.

What is Economic Planning? - Economics Discussion

D. Ray, Development Economics, Princeton University Press (1998). A. Banerjee & E. Duflo, Poor Economics, Public Affairs (2012) *A more detailed reading list will be supplied prior to the start of the programme **Course content, faculty and dates may be subject to change without prior notice

Development Economics

a feature of economic welfare or development. Surely, many families in rich countries may take great pleasure in having a large number of offspring. Likewise, large holdings of physical capital may well have an instrumental value to play in the development process,

Notes for a Course in Development Economics

This paper examines the relevance of selected planning models in the attempt to reduce poverty and achieve economic growth and development in Nigeria through national economic development plans.

(PDF) Economic Planning Models for Development: The ...
Economic planning is a resource allocation system based on a computational procedure for solving a constrained maximization problem with an iterative process for obtaining its solution. Planning is a mechanism for the allocation of resources between and within organizations contrasted with the market mechanism. As an allocation mechanism for socialism, economic planning replaces factor markets with a procedure for direct allocations of resources within an interconnected group of socially owned o

Educational Planning, Economics and International ...

The drive toward comprehensive planning arises from various causes: from a distrust of the automatic working of the market mechanism and its ability to promote economic development; from a desire to assert national economic independence by government control of foreign trade and investment; and from the theories of economic development, fashionable during the 1950s, that emphasize the need for ...
