The FMC provides the
ability to export a
number of system
configurations (such
as policies, custom
tables, and report

Access PDF Fmc Guide

templates) to a file which can then be used to import those same configurations to another FMC running the same Firepower version.

This can be a timesaving feature for administrators adding new appliances to a deployment, but it must be used with care to prevent

A Flight Management
System (FMS) is a

Acces PDF Fmc Guide

centralized computer system used in airliners, and other high-performance aircraft, to manage many of the aircraft systems, including (but not limited to) the flight plan.

Contemporary airliners rely on the FMS to automate a wide-variety of tasks, previously performed
