With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The "Organ Systems Overview" dissection exercise includes instruction on both rat and human dissection. Color photographs of rat and human dissection views further enhance the exercise. The spiral binding gives students a useful, convenient format for taking notes during lab. Perforated pages make it convenient for students to tear out the Review Sheets.

Anger. We all experience it, some more than others. When is it righteous, and when is it not? How can we control our anger and not get caught in a maze of rage when things don't go our way? David Powlison takes a close look at anger to help us to understand what it is and why we have it. He exposes three common misconceptions that leave us powerless to overcome anger. Using the illustration of a traffic jam, he probes the assumptions and cravings of the heart behind a typical angry response. In place of the false premises and futile consequences of ungodly anger, Powlison guides us to biblical truths and outcomes that honor God and teach us how to live.
