Welcome to 3D Machine Shop Engineering Ltd We are a private family owned company, formed in late 2006 from a management buy-out of PCS (Midlands) Ltd. an established machining company that specialized in Sub Contract machining of cold headed or machined parts, secondary operations, based in Birmingham West Midlands.

Sub Contract Machining Birmingham 3D Machine Shop

What is the Engineering Machine Shop The machine shop has a wide range of industry standard hand tools and precision equipment, creating an engineering environment dedicated to taking the theoretical knowledge that is learned in the classroom and applying it to practical real-life sessions. What specialist equipment is in the Machine Shop?

This comprehensive reference, based on information extracted from Modern Machine Shop's Handbook for the Metalworking Industries, contains almost 400 large, easy-to-read pages of text, tables, and diagrams that provide the properties and characteristics of a broad range of both metallic and nonmetallic materials, complete with detailed descriptions of heat treatment procedures and testing methods. In addition to covering conventional metals such as steel, aluminum, and copper, extensive data on plastics, fiber reinforced composites, specialized magnesium and titanium alloys, and heat-resistant 'superalloys'
