Medical Student Quiz | MCQ | SBA | Over 3000 Free MCQs

Multiple choice questions (MCQs) in the past were the most common modality by which medical students were examined. Although able to test a broad range of topics and being cost efficient for marking purposes, MCQs have largely been abandoned in favour of extending matching questions (EMQs) and more recently the single best answer (SBA) question format.

500 single best answers in medicine - SlideShare

Test yourself with these questions from OnExamination A 26 year old man presents at the emergency department with sudden onset breathlessness. Examination shows him to be dyspnoeic at rest, with saturations of 80% on air and a pulse rate of 100 beats/min. His trachea is not deviated, and his blood pressure is 117/82 mm Hg. Figure 1 shows his radiograph (Fig1).

The Emergency Medicine MOC (ConCert Exam) is split into two sections and includes approximately 205 MCQs in single best answer format. Exam questions focus on what an emergency medicine physician needs to know when treating patients and the entire exam takes about 5.25 hours to complete. To pass, you need to answer 75% or more questions correctly.

Emergency Medicine MCQs - PDF Download

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

Emergency Medicine Lecture Notes provides all the necessary information, within one short volume, for a sound introduction to this core specialty area. Presented in a user-friendly format, combining readability with flowcharts and high-quality illustrations, this fourth edition has been thoroughly revised to reflect recent advances in the field of emergency medicine. For this new edition, Emergency Medicine Lecture Notes features: • Illustrations and flow charts in a two colour presentation throughout • More detail on imaging, diagnosis and management of a wide range of acute conditions • A brand new companion website at www.lecturenoteseries.com/emergencymed featuring a selection of MCQs to test readers on common pitfalls in emergency medicine Not only is this book a great starting point to support initial teaching on the topic, but it is easy to dip in and out of for reference or revision at the end of a module, rotation or final exams. Whether you need to develop or refresh your knowledge of emergency medicine, Emergency Medicine Lecture Notes presents 'need to know' information for all those involved in treating those in an emergency setting.

Covers general aspects about preparing for the Fellowship Examination, followed by information about the individual written and clinical components. Includes example questions and template answers for the written examination. Australian authors.

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

This little book has been written primarily for the senior house officer in Accident and Emergency and the registrar pursuing a career in the specialty. I hope also that it will be of interest to medical students. Thanks to the initiative of Professor Miles Irving, Professor of Surgery, University of Manchester, medical students have been taught Accident and Emergency in Hope Hospital since 1974. Many of the answers to the questions here have been elaborated as a result of their enquiring minds. It has been a pleasure to teach them. MCQs should be informative and entertaining and not regarded as a tiresome chore merely because of self assessment scoring. I have omitted the boxes and the "don't know" response. The answers are either true or false. I have attempted to slot the questions into various sections with some degree of sequence, but there is an inevitable overlap particularly with regard to the sections on the unresponsive patient, poisoning and injury. The final section is a selected mixture of Accident and Emergency and I thought "Pot pourri" an appropriate title. I have enjoyed compiling the questions and I hope that both undergraduates and postgraduates will find reading them a painless and worthwhile exercise. Finally my thanks are due to my secretary Eileen Bates for her typing and patience.

Get Through Accident and Emergency Medicine: MCQs provides an essential and unique resource for all candidates preparing for the MCQ components of Accident and Emergency examinations. Practicising MCQs is an invaluable revision tool for exam success and this book includes over 400 MCQs covering key topics: Trauma, Orthopaedics, Toxicology, Paediatrics, Surgery, Infectious diseases and Anatomy. Questions have been modelled on actual exam questions so that they reflect the style and level of difficulty. Detailed explanations are given in each answer section, with tips and techniques provided to help candidates in answering questions and with effective revision. Get Through Accident and Emergency Medicine: MCQs is an invaluable revision tool and self-test book for all Accident and Emergency examination candidates as well as for those specialising in trauma and other specialties.

"This revision builds on the success of 1e: review questions and answers that mimic the EM in-service residency exam and the EM boards. These questions cover a wide range of topics in emergency medicine, identity, trauma, obstetrics, pediatrics, toxicology, environmental, radiology, dermatology, EMS, and bioterrorism . Concise rationale for the correct and incorrect answers is discussed. Sources for answer explanations include all currently available authoritative EM textbooks.1) 1000 questions, randomly divided into 10 tests of 100 questions. 2) topics include all areas of Emergency Medicine, including internal medicine and surgery specialty areas, dentistry, trauma, obstetrics, pediatrics, toxicology, environmental, radiology, dermatology, EMS, and bioterrorism. 3) questions are case-based, and 10% involve interpreting an image"--Provided by publisher.

From the publishers of the market-leading at a Glance series comes a wide-ranging and succinct overview of the key concepts of emergency care. Emergency Nursing at a Glance uses the unique and highly visual at a Glance format to convey vital information quickly and efficiently, ensuring that nursing students have access to all the important topics they need for an emergency care placement. This highly visual, easy-to-read guide is the ideal companion for anyone entering fields involving urgent or unscheduled care. •Includes all aspects of emergency care, including trauma, minor injury, triage processes, patient assessment, common emergency presentations, as well as legal, ethical and professional issues. •Covers care of adults, children, and those with learning disabilities and mental health conditions •Presented in the bestselling at a Glance format, with superb illustrations and a concise approach Emergency Nursing at a Glance is an invaluable resource for nursing students, newly qualified nurses and other healthcare professionals working in emergency departments, urgent care centres, minor injury units and walk-in centres.
