Mind the Gap - The Academic Experience of Black Students in Higher Education – Improving Awards and Opportunity. This studentship will focus on the experiences of Black students in higher education, including UCLan and the factors that may contribute to the Award gap in degree outcomes between Black and White students.

The Routledge Companion to Media and Tourism provides a comprehensive overview of the research into the convergence of media and tourism and specifically investigates the concept of mediatized tourism. This Companion offers a holistic look at the relationship between media and tourism by drawing from a global range of contributions by scholars from disciplines across the humanities and social sciences. The book is divided into five parts, covering diverse aspects of mediatization of tourism including place and space, representation, cultural production, and transmedia. It features a comprehensive theoretical introduction and an afterword by leading scholars in this emerging field, delving into the ways in which different forms of media content and consumption converge, and the consequential effects on tourism and tourists. The collection is an invaluable resource for students and scholars of tourism studies, cultural studies, and media and communication, as well as those with a particular interest in mediatization, convergence culture, and contemporary culture.

Research in Personnel and Human Resources Management is designed to promote theory and research on important substantive and methodological topics in the field of human resources management. Volume 36 focuses on key issues such as job search processes, human resource technology systems, pregnancy issues at work, and emotions at work.

For Dash and Lily, it's beginning to look a lot like...distance! Just in time for the series release of Dash & Lily on Netflix comes a new helping of love--this time across the pond as best-selling authors Rachel Cohn and David Levithan send Dash and Lily to England. Dash and Lily were feeling closer than ever...it's just too bad they're now an ocean apart. After Dash gets accepted to Oxford University and Lily stays in New York to take care of her dogwalking business, the devoted couple are struggling to make a long distance relationship work. And when Dash breaks the news that he won't be coming home for Christmas, Lily makes a decision: if Dash can't come to her, she'll join him in London. It's a perfect romantic gesture...that spins out of Lily's control. Soon Dash and Lily are feeling more of a gap between them, even though they're in the same city. Will London bring them together again--or will it be their undoing?

Much of the existing literature within the "varieties of capitalism " (VOC) and "comparative business systems " fields of research is heavily focused on Europe, Japan, and the Anglo-Saxon nations. As a result, the field has yet to produce a detailed empirical picture of the institutional structures of most Asian nations and to explore to what extent existing theory applies to the Asian context. The Oxford Handbook of Asian Business Systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within Asia. Drawing on the deep knowledge of 32 leading experts, this book presents an empirical, comparative institutional analysis of 13 major Asian business systems between India and Japan. To aid comparison, each country chapter follows the same consistent outline. Complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes. A further three chapters provide perspectives on the influence of history and institutional change. The concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in Asia. The Handbook is a major reference work for scholars researching the causes of success and failure in international business in Asia.

The way you parent, the clothes you buy, your relationships with your boss and your daughter, your attitude to money and sex, are, to an extraordinary extent, defined by the era into which you were born. Parents, the church, teachers and employers think they understand youngsters because they, too, were young once. But adults no longer live in the world that existed when they were teenagers. We may occupy the same space, home, classroom or office but we live in different worlds. And these worlds often collide. We've moved in one century from a 'built to last' to a 'throwaway' society. No wonder age differences are so vast. In this book you will discover your generation and those of the people who make up your life. Once you understand what makes them, and you, tick, the 'gen gap' begins to shrink. Fasten your seatbelt for a generational roller coaster ride - you may never think the same way again! In this book you'll understand why: your boss insists on endless meetings and conferences; your 20-something student doesn't want a 50-something computer teacher; you're in your 40s but still trying to prove yourself to Mom and Dad; your teacher should be learning from you.

Women ' s entrepreneurship is an effective way to combat poverty, hunger and disease, to stimulate sustainable business practices, and to promote gender equality. Yet, deeply engrained cultural norms often prescribe gender-specific roles and behaviors that severely constrain the opportunities for women ' s entrepreneurial activities. This excellent new volume of work from the Diana Group explores this paradox.

Business transactions and partnerships across borders have become easier than ever due to globalization and global digital connectivity. As part of this shift in the business sphere, managers, executives, and strategists across industries must acclimate themselves with the challenges and opportunities for conducting business globally. International Business: Concepts, Methodologies, Tools, and Applications presents the latest research innovations focusing on cross-cultural communications and training, international relations, multinational enterprises, outsourcing, international business strategies, and competitive advantage in the global marketplace. This publication is an exhaustive multi-volume work essential to academic and corporate libraries who serve researchers, scholars, business executives and professionals, and graduate-level business students.

In the modern globalized economy, it is important for businesses of all sizes to take advantage of the opportunity to enter diverse markets around the world. Through an international presence, organizations can remain competitive. The Handbook of Research on Global Business Opportunities combines comprehensive viewpoints and research on various business enterprises from around the world in companies of all sizes and models, discussing different aspects and concerns in the global business environment such as corruption, taxation, supply chain management, and economic impacts. This handbook is an essential reference source for business executives from both large and small firms, business scholars, researchers, academics, students, and professionals.
