Free response questions allow professors to see the train of thought the student was following and evaluate where they might have gone wrong, it also allows the students to receive partial credit that isn't possible with multiple choice questions. Ultimately, free responses are a better assessment of deeper understanding than multiple choice questions cannot provide, because they are in no way prompting you towards the correct answer.

Free response, usually referred to as essay, is a type of question used in tests in education, workplace, and government. Most free response questions ask or require the test-taker to state a belief, opinion, or write a short essay and support it with facts, examples, or other evidence. However, few tests solely rely on these types of problems, and tend to work in conjunction with other types ...

Multiple choice or objective response is a form of an objective assessment in which respondents are asked to select only correct answers from the choices offered as a list. The multiple choice format is most frequently used in educational testing, in market research, and in elections, when a person chooses between multiple candidates, parties, or policies.
