There is no idea that seems so much misunderstood as this idea of "Money." On the one hand we find many people engaged in a mad chase after "money for money's sake," and on the other hand, many others are decrying money as the root of all evil, and severely criticizing the

tendency of the age to seek money actively. Both of these classes of people are wrong-they are occupying the opposite sides of the road of reason, whereas truth is found here, as always, "in the middle of the road."-Edward E Beals

WHAT HAPPENS WHEN WE DIE? WHERE DO WE GO? WHO ARE WE WITH? ABOVE & BEYOND addresses these questions and more... you will be introduced to a bevy of characters that are working through their after life experiences and revealing to you the reader what it might be like. Sometimes emotional, many times humorous, always enlightening and affirmative as tough issues of life, death, and love are explored. When we start the journey, our narrator and hero, Jack Richman seemed to have it all, a beautiful wife and family, successful scientist and writer who is on assignment in Johannesburg, South Africa when an explosion takes place. This presumed terrorist attack gets revealed to be a natural gas explosion that demolishes a six street radius... Jack was at ground zero. He "wakes" up on the Other Side to Dr. Annie Brooks and her team of residents in this 'other' worldly hospital. At first glance she looks like she is wearing clothing from the 1800's but in a blink, she is wearing a modern day lab coat... When Dr. Annie Brooks looks at him, there's a calming energy that warms him and lets him know he is going to be all right... but all Jack could think of is "his wife"... Jack is about to come to terms with finding out he is in the Afterlife... and he becomes our eyes and ears of what happens when he crosses over....
