In this appealing autobiography, Rose Cohen looks back on her family's journey from Tsarist Russia to New York City's Lower East Side. Her account of their struggles and of her own coming of age in a complex new world vividly illustrates what was, for some, the American experience. First published in 1918, Cohen's narrative conveys a powerful sense of the aspirations and frustrations of an immigrant Jewish family in an alien culture. With uncommon frankness, Cohen reports her youthful impressions of daily life in the tenements and of working conditions in garment sweatshops and domestic service. She introduces a large cast, including her co-workers, employers, mentors, family members, and friends. In simple yet moving terms, she recalls how, while confronting setbacks caused by poor health and dilemmas posed by courtship, she finds opportunities to educate herself. She also records the gradual weakening of her family's commitment to religion as they find their way from the shadow of poverty toward the mainstream of American life.

Leave all stress and struggle behind you. You can enjoy sublime peace in this very moment right here, right now through the simple practice of Quantum Inquiry."

In Place/Out of Place was first published in 1996. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. What is the relationship between place and behavior? In this fascinating volume, Tim Cresswell examines this question via "transgressive acts" that are judged as inappropriate not only because they are committed by marginalized groups but also because of where they occur. In Place/Out of Place seeks to illustrate the ways in which the idea of geographical deviance is used as an ideological tool to maintain an established order. Cresswell looks at graffiti in New York City, the attempts by various "hippie" groups to hold a free festival at Stonehenge during the summer solstices of 1984–86, and the Greenham Common Women's Peace Camp in Berkshire, England. In each of the cases described, the groups involved were designated as out of place both by the media and by politicians, whose descriptions included an array of images such as dirt, disease, madness, and foreignness. Cresswell argues that space and place are key factors in the definition of deviance and, conversely, that space and place are used to construct notions of order and propriety. In addition, whereas ideological concepts being expressed about what is good, just, and appropriate often are delineated geographically, the transgression of these delineations reveals the normally hidden relationships between place and ideology—in other words, the "out-of-place" serves to highlight and define the "in-place." By looking at the transgressions of the marginalized, Cresswell argues, we can gain a novel perspective on the "normal" and "taken-for-granted" expectations of everyday life. The book concludes with a consideration of the possibility of a "politics of transgression," arguing for a link between the challenging of spatial boundaries and the possibility of social transformation. Tim Cresswell is currently lecturer in geography at the University of Wales.

"Place" shapes human identity and community. Arguing that theologies are shaped by place so no theology can be universal, "Out of Place" assesses the ways in which theology, as a discipline and a practice, is "out of place". Departing from dominant theological discourse, the book argues that for theology to be transformative it must connect with "place" and engage with marginalised peoples and cultures. Ranging across Asian American theology to Tamils in the London diaspora, Australian Pentecostalism to HIV and AIDS sufferers, "Out of Place" will be of invaluable to scholars and students of sociology and religion interested in the intersection of theology and locality.

This multidisciplinary collection of essays examines alternative subcultures in Eastern Europe and the Soviet Union during the era of late socialism. The contributors analyze how these marginal communities rejected mainstream socialist culture, sought ideological and physical space from the state, and contributed to the demise of the USSR.

In *Out of Oakland*, Sean L. Malloy explores the evolving internationalism of the Black Panther Party (BPP); the continuing exile of former members, including Assata Shakur, in Cuba is testament to the lasting nature of the international bonds that were forged during the party's heyday. Founded in Oakland, California, in October 1966 by Huey P. Newton and Bobby Seale, the BPP began with no more than a dozen members. Focused on local issues, most notably police brutality, the Panthers patrolled their West Oakland neighborhood armed with shotguns and law books. Within a few years, the BPP had expanded its operations into a global confrontation with what Minister of Information Eldridge Cleaver dubbed "the international pig power structure." Malloy traces the shifting intersections between the black freedom struggle in the United States, Third World anticolonialism, and the Cold War. By the early 1970s, the Panthers had chapters across the United States as well as an international section headquartered in Algeria and support groups and emulators as far afield as England, India, New Zealand, Israel, and Sweden. The international section served as an official embassy for the BPP and a beacon for American revolutionaries abroad, attracting figures ranging from Black Power skyjackers to fugitive LSD guru Timothy Leary. Engaging directly with the expanding Cold War, BPP representatives cultivated alliances with the governments of Cuba, North Korea, China, North Vietnam, and the People's Republic of the Congo as well as European and Japanese militant groups and the Palestinian Liberation Organization. In an epilogue, Malloy directly links the legacy of the BPP to contemporary questions raised by the Black Lives Matter movement.

People have a choice to live under the tyranny of Pharaoh or experience an exodus and travel to a land flowing with milk and honey. Based on a true story, this is the retelling of one woman's escape from Egypt. Adira Bat Avraham shares her incredible journey that led her to a place of personal and spiritual freedom. From the author of *How to Rescue a Dead Princess* comes *Out of Whack*, an outrageous comedy about friendship, love, following your dreams, and other really scary stuff. Seth Trexler has two goals in life: to find success with his off-the-wall sketch comedy troupe, and to win the girl of his dreams. But when you suffer from brain-erasing stage fright and an incredible female-phobia, those goals can be a bit tricky to attain. With his best friend Travis at his side, Seth struggles to overcome his fears (along with the 2,873 other roadblocks in the path to success) in this hilariously demented yet heartfelt tale. But don't read it for the laughs. And don't read it for the heartfelt parts. Read it for the sex scene, which proves that even if you're filled with ravenous animal passion, trying to dramatically tear off somebody's underwear can only lead to wedgies.
