Solution-focused therapy, also called solution-focused brief therapy (SFBT), is a type of therapy that places far more importance on discussing solutions than problems (Berg, n.d.). Of course, you must discuss the problem to find a solution, but beyond understanding what the problem is and deciding how to address it, solution-focused therapy ...

~~What is Solution Focused Therapy: 3 Essential Techniques~~

Solution-focused therapists see the therapeutic change process quite differently. Informed by the observations of Steve de Shazer, recognizing that although "causes of problems may be extremely complex, their solutions do not necessarily need to be". Questions and compliments are the primary tools of the solution-

The second question, the more typical solution focused question, invites an answer from the client in terms of criteria, in terms of signs. "I will know that I have moved up one point on the scale because I will notice myself beginning to feel more confident, I will be going out more and talking with friends again."

~~BRIEF—The Language of Solution Focused Brief Therapy~~

The concept of the miracle question comes to us from a research-based therapeutic approach known as solution-focused therapy. The premise is deceptively simple: when we change our focus from what is wrong to what

is right, a shift will occur and we'll begin to see beyond our anxiety. When we see beyond our anxiety, anxiety weakens.

~~Five Solution Focused Ways to Beat Anxiety | HealthyPlace~~

The solution focused approach challenges counsellors to be attentive to positive changes (however small) that occur in their clients' lives.

Questions that presuppose change can be useful in assisting clients to recognise such changes. Questions such as, "What's different, or better since I saw you last time?"
