Discover the managerial accounting text written to complement the way you study and learn! CORNERSTONES OF MANAGERIAL ACCOUNTING, 3E, uses a unique framework to show you the key concepts, or "Cornerstones," of accounting. As you come to understand these fundamental calculations, you will develop critical problem-solving skills to make real business decisions.

Close the gap between homework and exam performance with Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14E! Market-leading FINANCIAL ACCOUNTING has been on the forefront of innovation and change based on the needs of today's teaching and learning environment. Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14e helps elevate student thinking with content that addresses each stage of the learning process from motivation to mastery. It motivates students to learn, provides practice opportunities to better prepare for exams, and helps students achieve mastery with tools to help them make connections and see the big picture. The Complete Learning System in FINANCIAL ACCOUNTING is built around the way students use textbooks to learn, study and complete homework, allowing them to achieve ultimate success in this course. The most significant changes for this edition involve the inclusion of the new revenue recognition standard. The end goal of Warren/Reeve/Duchac's FINANCIAL ACCOUNTING learning system is to elevate thinking and create more empowered and prepared students--ready to take on the rest of their educational and career goals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Praise for the First Edition ". . . outstandingly appealing with regard to its style, contents, considerations of requirements of practice, choice of examples, and exercises." —Zentrablatt Math ". . . carefully structured with many detailed worked examples . . ." —The Mathematical Gazette ". . . an up-to-date and user-friendly account . . ." —Mathematika An Introduction to Numerical Methods and Analysis addresses the mathematics underlying approximation and scientific computing and successfully explains where approximation methods come from, why they sometimes work (or don't work), and when to use one of the many techniques that are available. Written in a style that emphasizes readability and usefulness for the numerical methods novice, the book begins with basic, elementary material and gradually builds up to more advanced topics. A selection of concepts required for the study of computational mathematics is introduced, and simple approximations using Taylor's Theorem are also treated in some depth. The text includes exercises that run the gamut from simple hand computations, to challenging derivations and minor proofs, to programming exercises. A greater emphasis on applied exercises as well as the cause and effect associated with numerical mathematics is featured throughout the book. An Introduction to Numerical Methods and Analysis is the ideal text for students in advanced undergraduate mathematics and engineering courses who are interested in gaining an understanding of numerical methods and numerical analysis.

With its tried-and-true framework and respected author team, Horngren/Harrison/Oliver's Financial & Managerial Accounting is the trusted choice for instructors and students of Principles of Accounting. Accounting and the Business Environment; Recording Business Transactions; The Adjusting Process; Completing the Accounting Cycle; Merchandising Operations; Merchandise Inventory; Internal Control and Cash; Receivables; Plant Assets and Intangibles; Current Liabilities and Payroll; Long-Term Liabilities, Bonds Payable, and Classification of Liabilities on the Balance Sheet; Corporations, Paid-In Capital, and the Balance Sheet; Corporations: Effects on Retained Earnings and the Income Statement Statement of Cash Flows; Financial Statement Analysis; Introduction to Management Accounting; Job Order and Process Costing; Activity-Based Costing and Other Cost-Management Tools; Cost-Volume-Profit Analysis; Short-Term Business Decisions; Capital Investment Decisions and the Time Value of Money; The Master Budget and Responsibility Accounting; Flexible Budgets and Standard Costs; Performance Evaluation and the Balanced Scorecard MARKET: For anyone interested in learning the principles of accounting.

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Integrated Business Processes with ERP Systems, 1st Edition, provides a comprehensive introduction to business processes and ERP concepts. The authors have based this textbook on the official SAP ERP training curriculum so that readers will be very well prepared to take and pass the entry-level consultant certification exam from SAP. This certification is the ticket to the highest paying jobs and is extremely sought after by SAP customers and partners. The authors have the full support of the SAP University Alliance program to promote this book as the gold standard for SAP courses.
