General Description of
Technical Reports Technical
reports are documents that
generally contain results of
research and development
supported by government
grants or contracts. They
can also come from private
and corporate sponsored
research.

Introduction to technical reports. One of the main forms of communication in engineering is the technical report. In the workplace, the report is a practical working document written by engineers for clients, managers, and other engineers. This means every report has a purpose beyond the simple presentation of information. Some common purposes are:

Electrical Engineering (EE) program prepares students with an education in three areas - foundational sciences, primary focus areas, and technical electives. Students in the program receive a well-balanced perspective of the world's challenges and industry's role in contributing to advancements while gaining experience in their preferred area of technical focus.
