type of rhythmic thumping, pulsing, throbbing, or whooshing only you can hear that is often in time with the heartbeat. Most people with pulsatile tinnitus hear the sound in one ear, though some hear it in both.

Ask the doctor: Is it worrisome to hear a pulse in my ear ...

If you 're experiencing a heartbeat in your ear, however, don 't jump to the conclusion that you necessarily have hearing loss, carotid artery disease or an A-V malformation. Remember, the arteries are like pipes that run throughout a house, in that when water is gushing out of a particular pipe, you can hear this if you press your ear to a wall in another part of the house—pipes, or arteries, can
