The Enemy Within is a preeminent political account of the British Muslim experience, focusing on the most pressing concerns facing communities: namely, the twin evils of terrorism and Islamophobia. Warsi's analysis of the problems facing British Muslims today is frank, and at times quite witty, as she pokes fun at the absurdity of the men around her.

'The Enemy Within,' NBC With The Americans gone and but a single reason remaining for Homeland, the field is clear for another spy show. And we just may have a contender with NBC's curiously...

'Hard headed, well informed and intellectually coherent ... it turns conventional wisdom on its head. It deserves to promote a public debate on this subject which has been needed for more than 20 years' Peter Osborne Britain has often found groups within its borders whom it does not trust, whom it feels have a belief, culture, practice or agenda which runs contrary to those of the majority. From Catholics to Jews, miners to trade unionists, Marxists to liberals and even homosexuals, all have at times been viewed, described and treated as 'the enemy within'. Muslims are the latest in a long line of 'others' to be given this label. How did this state of affairs come to pass? What are the lessons and challenges for the future - and how will the tale of Muslim Britain develop? Sayeeda Warsi draws on her own unique position in British life, as the child of Pakistani immigrants, an outsider, who became an insider, the UK's first Muslim Cabinet minister, to explore questions of cultural difference, terrorism, surveillance, social justice, religious freedom, integration and the meaning of 'British values'. Uncompromising and outspoken, filled with arguments, real-life experience, necessary truths and possible ways forward for Muslims, politicians and the rest of us, this is a timely and urgent book. 'This thoughtful and passionate book offers hope amid the gloom' David Anderson QC, Independent Reviewer of Terrorism Legislation 'A vital book at a critical time' Helena Kennedy QC

'The Muslims, or, more politely put, the Muslim communities, are described and most often referred to as a monolithic block. Well they - we - are not ... Most of us simply want to get on with our lives.' Sayeeda Warsi, peer of the realm, could be considered part of the Establishment. So why does she wonder over half a century after her grandfather came to the UK whether the UK will still be a home for her grandchildren? Tracking the changing currents in British attitudes and policy towards Islam and unpicking the challenges for Muslims with brutal honesty, The Enemy Within offers solutions to the big issues of our time with much-needed clarity and humour.

One of Kristine Kathryn Rusch's most acclaimed short stories becomes one of her most original novels. February, 1964: Two men die in a squalid alley in a bad neighborhood. New York Homicide Detective Seamus O'Reilly receives the shock of his life when he looks at the men's identification: J. Edgar Hoover, the famous, tyrannical director of the FBI, and his number one assistant, Clyde Tolson. O'Reilly teams up with FBI agent Frank Bryce to solve the second high-level assassination in only three months. Because in November of the previous year, someone assassinated President John F. Kennedy. The cop and the FBI agent must determine if the same shadowy organization committed all three murders. To do so, they must act quickly before some of the nation's most powerful men—from Kennedy's brother, Attorney General Robert F. Kennedy, to the President of the United States, Lyndon Baines Johnson—do something rash to keep Hoover's secrets from ever becoming public. In our world, Hoover kept his secrets until long after his death. In Seamus O'Reilly's world, Hoover's secrets get him killed. The Enemy Within offers alternate history so plausible that only Kristine Kathryn Rusch could have written it. "A dark, yet fascinating tale, The Enemy Within gives readers an intriguing look at what could have happened in 1964 New York." -RT Book Reviews "Rusch weaves a convincing alternate history tale of 'what ifs' that interlaces with our own history of those troubled times. ... Be sure to read Kristine Kathryn's Rusch's latest thriller The Enemy Within for non-stop political intrigue!" -Dave Dickinson, Astroguys "[Enemy Within] is a blend of mystery, political thriller, and alternate history. It was a compelling read I had trouble putting down. ... This is one fans of political thrillers won't want to miss." -Keith West, Adventures Fantastic "[The Enemy Within] moves fast and has a surprising twist at the end. It's fine 'what-if' reading, and there's a sequel in the works. Check it out." -Bill Crider's Pop Culture Magazine "Entertaining and well written." -Gumshoe

Like Michael Connelly's Bosch, former war correspondent John Bailey will risk everything to get to the truth – and expose a deadly enemy. He heard a voice, someone calling out in the distance, followed by a loud fluttering of birds. Bailey looked up just in time to see a body falling from the sky ... Investigative journalist John Bailey is doing his best to turn his life around after losing the woman he loved. He has a new job. He's given up the drink. He even has a dog. But then Federal Police raid his home with a warrant granting them unprecedented powers to take anything they want, including all his electronic devices and passwords. When Bailey protests, they threaten to put him in a prison cell. Someone wants to stop Bailey doing what he does best – exposing the truth. He has been investigating the rise of a global white supremacist group and suspects that a notorious neo-Nazi in the United States has been directing deadly racist attacks on Sydney's streets. When the body of one of his key sources washes up on a nearby beach, it's clear Bailey and anyone helping him have become targets. Bailey reaches out to a ruthless old friend – CIA veteran, Ronnie Johnson – to lure the enemy from the shadows. An enemy who thought they were untouchable. Until now ... 'A cracking yarn told at breakneck speed. I couldn't put it down.' Chris Hammer 'Sharp, gritty, sophisticated. Ayliffe's criminal world is terrifyingly real.' Candice Fox Praise for State of Fear 'Another brilliantly crafted thriller from Ayliffe that fits perfectly in today's worrying world ... Verdict: Get this guy on TV.' Herald Sun 'Sharp, incisive and scarily prescient, I was hooked from the first chapter to the final page.' Sara Foster, bestselling author of The Hidden Hours 'Utterly compelling and terrifyingly timely. I could not put it down.' Pip Drysdale, bestselling author of The Sunday Girl 'As a correspondent, I lived this world. Tim Ayliffe has written it.' Stan Grant, writer and broadcaster Praise for The Greater Good 'A brilliantly written character starring in cracking crime thriller.' Herald Sun 'Ayliffe delivers a taut, nail-biting page-turner, stamping his mark on the modern day Australian thriller.' Better Reading 'An absolute cracker of a thriller.' Chris Uhlmann

Sir Tristan Hiregaard, terrified by his periodic transformation into the evil Malken, a hideous man-beast who controls a vast criminal empire, sets out to destroy, one way or another, his evil side.

Two Pulitzer Prize-winning journalists take an unbridled look into one of the most sensitive post-9/11 national security investigations—a breathtaking race to stop a second devastating terrorist attack on American soil. In Enemies Within, Matt Apuzzo and Adam Goldman “reveal how New York really works” (James Risen, author of State of War) and lay bare the complex and often contradictory state of counterterrorism and intelligence in America through the pursuit of Najibullah Zazi, a terrorist bomber who trained under one of bin Laden's most trusted deputies. Zazi and his co-conspirators represented America's greatest fear: a terrorist cell operating inside America. This real-life spy story—uncovered in previously unpublished secret NYPD documents and interviews with intelligence sources—shows that while many of our counterterrorism programs are more invasive than ever, they are often counterproductive at best. After 9/11, New York Police Commissioner Ray Kelly initiated an audacious plan for the Big Apple: dispatch a vast network of plainclothes officers and paid informants—called “rakers” and “mosque crawlers”—into Muslim neighborhoods to infiltrate religious communities and eavesdrop on college campuses. Police amassed data on innocent people, often for their religious and political beliefs. But when it mattered most, these strategies failed to identify the most imminent threats. In Enemies Within, Apuzzo and Goldman tackle the tough questions about the measures that we take to protect ourselves from real and perceived threats. They take you inside America's sprawling counterterrorism machine while it operates at full throttle. They reveal what works, what doesn't, and what Americans have unknowingly given up. “Did the Snowden leaks trouble you? You ain't seen nothing yet” (Dan Bigman, Forbes editor).

Horrific torture in an alien prison torpedoed Captain Ari Idylle's military career. Stripped of command and banished to her father's scientific expedition to finish a PhD she doesn't want, Ari refuses to fly a desk. She intends to have her command back by any means possible, until pirates commandeer her father's ship, and she's once again a prisoner. Perhaps this cunning captor isn't what he pretends to be. As far as Cullin Seaghdh is concerned, the same goes for Ari. Her past association with aliens puts her dead center in Cullin's cross-hairs. If she hasn't been brainwashed and returned as a spy, then she must be part of a traitorous alliance endangering billions of lives. He can't afford the desire she fires within him. His mission comes first. He'll stop at nothing, including her destruction, to uncover her true purpose and

protect what is his.

A collection of linked short stories by the author of *When Skateboards Will Be Free* includes several pieces originally published in *The New Yorker* and features a sequence of aimless young men who endure morning commutes, complicated affairs and cruel bosses while pursuing better jobs.

The White House, infiltrated. The president, running for his life. A traitorous general, intent on burning the world to the ground. When everything falls apart, who do you trust? President Jack Spiers fled Washington DC on the heels of a devastating attack on CIA headquarters, masterminded by one of America's own, former General Porter Madigan. While the world believes Jack was killed in the bombing, he embarks on a wild infiltration mission, smuggling himself into occupied Russia to rescue the love of his life: former Secret Service Agent and First Gentleman Ethan Reichenbach. Reunited, Jack, Ethan, and deposed Russian president Sergey Puchkov, along with President Elizabeth Wall--the only person left in Washington DC who Jack trusts--must work together. They piece together a desperate plan, hunting Madigan to the ends of the earth and the bitter fridity of the Arctic, where Madigan's world-shattering doomsday plan comes together. Outnumbered, outmaneuvered, and outgunned, Jack, Ethan, Sergey, and the rest of the team struggle to put a stop to Madigan and his army. In the desolate extremes of the Arctic, their resolve, their strength, and even their love is tested, pushed to the absolute limits as choices must be made: choices that pit the fate of the world against the love in their hearts, and the loves of their life. As the world crumbles around them, Jack and Ethan find themselves waging a war on two fronts--against an enemy they can see, and another, hiding within their ranks. Who can be trusted when the enemy is within you?
