About The Implacable Order of Things. Winner of the José Saramago Literary Award. In an unnamed Portuguese village, against a backdrop of severe rural poverty, two generations of men and women struggle with love, violence, death, and—perhaps worst of all—the inescapability of fate. A pair of twins conjoined at the pinky, a 120-year-old wise man, a shepherd turned cuckold by a giant, and even the Devil himself make up the unforgettably oddball cast of The Implacable Order of Things.

~~THE IMPLACABLE ORDER OF THINGS by José Luís Peixoto ...~~

In The Order of Things: An Archaeology of the Human Sciences Foucault said that an historical period is characterized by epistemes — ways of thinking about truth and about discourse — which are common to the fields of knowledge, and determine what ideas it is possible to conceptualize and what ideas it is acceptable to affirm as true.

Winner of the José Saramago Literary Award A mesmerizing tale from Portugal's most acclaimed young novelist. Set in an unnamed Portuguese village, against a backdrop of severe poverty, The Implacable Order of Things follows two generations of men and women as they struggle with love, jealousy, violence, loss, and—most of all—the inescapability of fate. With subtle prose and powerful imagery, José Luís Peixoto delicately weaves together the stories of his oddball cast—including a pair of twins conjoined at the pinky, a supercentenarian, a

shepherd turned cuckold by a giant, and even the Devil himself.

The Lázaro family are carpenters who would rather be piano-makers. In the dusty back room of their carpentry shop in Lisbon is the 'piano cemetery', filled with broken-down pianos that provide the spare parts needed for repairing and rebuilding instruments all over the city. It is a mysterious and magical place, a place of solace, a dreaming place and, above all, a trysting place for lovers. Peixoto weaves the tragic true story of the marathon-runner, Francisco Lázaro, into a rich narrative of love, betrayal, domestic happiness and dashed hopes.

On May 8, 1945, Victory in Europe Day-shortened to "V.E. Day"-brought with it the demise of Nazi Germany. But for the Allies, the war was only half-won. Exhausted but exuberant American soldiers, ready to return home, were sent to join the fighting in the Pacific, which by the spring and summer of 1945 had turned into a gruelling campaign of bloody attrition against an enemy determined to fight to the last man. Germany had surrendered unconditionally. The Japanese would clearly make the conditions of victory extraordinarily high. In the United States, Americans clamored for their troops to come home and for a return to a peacetime economy. Politics intruded upon military policy while a new and untested president struggled to strategize among a military command that was often mired in rivalry. The task of defeating the Japanese seemed nearly unsurmountable, even while plans to invade the home islands were being drawn. Army Chief of Staff General George C. Marshall warned of the toll that "the agony of enduring battle" would likely take. General Douglas MacArthur clashed with Marshall and Admiral Nimitz over the most effective way to defeat the increasingly resilient Japanese combatants. In the midst of this division, the Army began a program of partial demobilization of troops in Europe, which depleted units at a time when they most needed experienced soldiers. In this context of military emergency, the fearsome projections of the human cost of invading the Japanese homeland, and weakening social and political will, victory was salvaged by means of a horrific new weapon. As one Army staff officer admitted, "The capitulation of Hirohito saved our necks." In *Implacable Foes*, award-winning historians Waldo Heinrichs (a veteran of both theatres of war in World War II) and Marc Gallicchio bring to life the final year of World War Two in the Pacific right up to the dropping of the atomic bombs over Hiroshima and Nagasaki, evoking not only Japanese policies of desperate defense, but the sometimes rancorous debates on the home front. They deliver a gripping and provocative narrative that challenges the decision-making of U.S. leaders and delineates the consequences of prioritizing the European front. The result is a masterly work of military history that evaluates the nearly insurmountable trials associated with waging global war and the sacrifices necessary to succeed.

During a lengthy incarceration spent mostly in solitary confinement, Russell Maroon Shoatz has developed into a prolific writer and powerful voice for the disenfranchised. This first published collection of his accumulated works showcases his sharp and profound understanding of the current historical moment, with clear proposals for how to move forward embracing new political concepts and practices. Informed by Shoatz's experience as a leader in the Black Liberation Movement in Philadelphia, the pieces in this book put forth his fresh and self-critical retelling of the black liberation struggle in the United States and provide cutting-edge analysis of the prison-industrial complex. Innovative and revolutionary on multiple levels, the essays also discuss such varied topics as eco-socialism, matriarchy and eco-feminism,

food security, prefiguration and the Occupy Wall Street movement. Including new essays written expressly for this volume, Shoatz's unique perspective offers many practical and theoretical insights for today's movements for social change.

Wade Whitehouse, divorced, estranged from his young daughter, spends his days as a well-driller, snow-plow operator, and policeman, his nights in a wind-swept trailer park. But when a union boss is killed in an apparent hunting accident near Wade's home, and he is convinced that it is murder, he seizes the event as a chance to right many wrongs - unaware that as he unravels the mystery he himself will become unravelled. Soon his hunger for justice and self-respect become inseparable from a desperate violence. From the Trade Paperback edition.

From the 1870s to the 1930s, American cartoonists devoted much of their ink to outlandish caricatures of immigrants and minority groups, making explicit the derogatory stereotypes that circulated at the time. Members of ethnic groups were depicted as fools, connivers, thieves, and individuals hardly fit for American citizenship, but Jews were especially singled out with visual and verbal abuse. In *The Implacable Urge to Defame*, Baigell examines more than sixty published cartoons from humor magazines such as *Judge*, *Puck*, and *Life* and considers the climate of opinion that allowed such cartoons to be published. In doing so, he traces their impact on the emergence of anti-Semitism in the American Scene movement in the 1920s and 1930s.

A stunningly powerful novel of man's will to survive against all odds, by the winner of the 1998 Nobel Prize for Literature. "This is a shattering work by a literary master."—*The Boston Globe* A *New York Times* Notable Book of the Year A *Los Angeles Times* Best Book of the Year A city is hit by an epidemic of "white blindness" which spares no one. Authorities confine the blind to an empty mental hospital, but there the criminal element holds everyone captive, stealing food rations and raping women. There is one eyewitness to this nightmare who guides seven strangers—among them a boy with no mother, a girl with dark glasses, a dog of tears—through the barren streets, and the procession becomes as uncanny as the surroundings are harrowing. A magnificent parable of loss and disorientation and a vivid evocation of the horrors of the twentieth century, *Blindness* has swept the reading public with its powerful portrayal of man's worst appetites and weaknesses—and man's ultimately exhilarating spirit.
