Knights Hospitaller - Ancient History Encyclopedia

The Order of Knights of the Hospital of Saint John of Jerusalem (Latin: Ordo Fratrum Hospitalis Sancti Ioannis Hierosolymitani), commonly known as the Knights Hospitaller (/ ɒ̩spɪtəlɪr /), the Knights of Rhodes, the Knights of Malta, or the Order of Saint John, was a medieval and early modern Catholic military order.

Knights Hospitaller - Wikipedia

The Knights Hospitaller, also known as the Hospitallers, Order of Hospitallers, Knights of Saint John and Order of Saint John, were among the most famous of the Western Christian military orders during the Middle Ages. The Hospitallers probably arose as a group of individuals associated with an...

Knights Hospitaller | Military Wiki | Fandom

Often counted among the better known medieval Christian military orders, the Knights Hospitallers or the Order of Knights of the Hospital of Saint John of Jerusalem (Ordo Fratrum Hospitalis Sancti Ioannis Hierosolymitani in Latin) were the older than both Templars and the Teutonic Knights. And unlike the latter two orders, the Hospitallers maintained their bulwark against the ascendant Islamic realms (like Mamluks and Ottomans) long after the decline of the Christian military presence ...

The Knights Hospitaller A Military History Of The Knights ...

Hospitallers, also spelled Hospitalers, also called Order of Malta or Knights of Malta, formally (since 1961) Sovereign Military and Hospitaller Order of St. John of Jerusalem, of Rhodes, and of Malta, previously (1113–1309) Hospitallers of St. John of Jerusalem, (1309–1522) Order of the Knights of Rhodes, (1530–1798) Sovereign and Military Order of the Knights of Malta, or (1834–1961) Knights Hospitaller of St. John of Jerusalem, a religious military order that was founded at ...

Hospitallers | Definition, History, & Facts | Britannica

Summary. The headquarters of the Order of Saint John or the Knights Hospitaller was located in Malta from 1530 until 1798. It was technically a vassal of the Kingdom of Sicily, holding Malta in exchange for a nominal fee, but declared independence in 1753.. The Order of Saint John was expelled from Malta under the French occupation in 1798 and, from 1805 to 1812, many of its possessions in ...

Sovereign Military Order of Malta - Wikipedia

This is a list of Grand Masters of the Knights Hospitaller, including its continuation as the Sovereign Military Order of Malta after 1798. It also includes unrecognized "anti-Grand Masters" and lieutenants or stewards during vacancies. The title "Grand Master" is applied retrospectively; the medieval heads of the order took the title of custos ("guardian") of the hospital.

Military Orders and the Crusades: Knights Templar and ...

A military order (Latin: *militaris ordo*) is a Christian religious society of knights. The original military orders were the Knights Templar, the Knights Hospitaller, the Order of Saint James [disambiguation needed], the Order of Calatrava, and the Teutonic Knights. They arose in the Middle Ages in association with the Crusades, both in the Holy Land and in the Iberian peninsula; their members ...

Military order (religious society) - Wikipedia

The original purpose of the order was to provide aid and medical care to Christian pilgrims to the Holy Land, but it soon became a military order which acquired extensive territories in Europe and whose knights made significant contributions to the Crusades in Iberia and the Middle East.

Knights Hospitaller: Medieval Catholic Military Order ...

In the 11th century the Knights of Malta, known then as "Knights Hospitaller", established a hospital in Jerusalem to care for pilgrims of any religious faith or origin. The work of the hospitallers grew in fame and in 1113 Pope Paschal II officially recognised the monastic community as a lay religious order.

The UK's largest choice of historical swords, armour, and associated giftware for Romans, Vikings, Templars, HEMA, LARP, Reenactment, and fancy dress.

The Knights of St John evolved during the Crusades from a monastic order providing hostels for Christian pilgrims visiting the Holy Land. The need to provide armed escorts to the pilgrims began their transformation into a Military Order. Their fervour and discipline made them an elite component of most Crusader armies and Hospitaller Knights (as they were also known) took part in most of the major engagements, including Hattin, Acre and Arsuf. After the Muslims had reconquered the Crusader Kingdoms, the Order continued to fight from a new base, first in Rhodes and then in Malta. Taking to the sea, the Hospitallers became one of the major naval powers in the Mediterranean, defending Christian shipping from the Barbary Pirates (and increasingly turning to piracy themselves as funding from their estates in Europe dried up). They provided a crucial bulwark against Islamic expansion in the Mediterranean, obstinately resisting a massive siege of Malta by the Ottoman Turks in 1565. The Order remained a significant power in the Mediterranean until their defeat by Napoleon in 1798.

As one of the greatest of the military orders that were generated in the Church, the Order of the Hospital of St John was a major landowner and a significant political presence in most

European states. It was also a leading player in the settlements established in the Levant in the wake of the crusades. It survives today. In this source-based and up-to-date account of its activities and internal history in the first two centuries of its existence, attention is particularly paid to the lives of the brothers and sisters who made up its membership and were professed religious. Themes in the book relate to the tension that always existed between the Hospital's roles as both a hospitaller and a military order and its performance as an institution that was at the same time a religious order and a great international corporation.

A vivid, concise history of the Order of St John of Jerusalem, founded to care for sick and poor pilgrims, defenders of Christendom for almost seven hundred years.

*Includes pictures *Includes medieval accounts *Includes online resources and a bibliography for further reading For centuries, Christians and Muslims were embroiled in one of the most infamous territorial disputes of all time, viciously and relentlessly battling one another for the Holy Land. In the heart of Jerusalem sat one of the shining jewels of the Christian faith, the Church of the Holy Sepulchre. Legend has it that this was where their Savior had been buried before his fabled resurrection. What was more, it was said to house the very cross Jesus Christ had died upon. It was for precisely these reasons that fearless pilgrims, near and far, risked their lives and made the treacherous trek to Jerusalem. Like other secretive groups, the mystery surrounding the Catholic military orders that sprung up in the wake of the First Crusade helped their legacies endure. While some conspiracy theorists attempt to tie the groups to other alleged secret societies like the Illuminati, other groups have tried to assert connections with them to bolster their own credentials. Who they were and what they had in their possession continue to be a source of great intrigue. The story of the Order of Knights of the Hospital of Saint John of Jerusalem, frequently shortened to the Knights Hospitaller, is long and complicated. Although the roots of the organization existed before the First Crusade, the order would not develop until 20 years after the famous call by Pope Urban II to conquer the Holy Land of Jerusalem for Christianity. Moreover, while the identity of the Knights Hospitaller was focused on the principles of crusading and military conquest, the order also focused on charitable Christian causes like the healing the sick and feeding the poor and hungry. In fact, functioning as a hospital was the original purpose of the Order before it started to militarize, yet as time wore on, such ideals would fade in the face of wealth, power, and desperation to reclaim the vestiges of prestige lost over the centuries. The Knights Hospitaller formed in the 12th century and continue to exist in contemporary times, albeit in a considerably different form. Over the last millennium, the organization has fulfilled different roles, served varying masters, and continued to uphold the tenets of crusading even when there was no Crusade to fight. All the while, as it went through centuries of murkiness, including the development of a notorious reputation, the Knights Hospitaller continued to adapt. In contemporary times, the Knights Hospitaller could no longer be said to uphold the morals of the Crusades, but it definitely continues to adhere to the tenets of chivalry and charity. To get to this new position, however, the Order needed to undergo trials, tribulations, and years of resorting to begging. The Knights Hospitaller: The History and Legacy of the Medieval Catholic Military Order chronicles the known history of the order and examines the secrecy and mysteries surrounding it. Along with pictures of important people, places, and events, you will learn about the Knights Hospitaller like never before.

An authoritative history of the Knights of St. John, from Jerusalem to Malta, told by the bestselling author of *The Great Siege*. Known by many names through their centuries-long career, The Knights Hospitaller of Saint John dedicated themselves to defending the poor and sick. First formed in Jerusalem during the Crusades of the eleventh century, the Order of Saint

John grew in wealth and power rivaled only by the Knights Templar. They survived exile from the Holy Land, settling first in Rhodes and then in Malta, which they famously defended against the Ottoman Empire's epic invasion of 1565. Even after losing Malta to Napoleon Bonaparte two centuries later, the Order of Saint John continued its mission. Ernle Bradford, whose bestselling book *The Great Siege* recounts their historic battle for Malta, follows the Knights of Saint John through centuries of war, politics, rivalry, and perseverance in *The Shield and the Sword*.

The Knights of St John of Jerusalem, also known as the Hospitallers, were a military religious order, subject to monastic vows and discipline but devoted to the active defence of the Holy Land. After evacuating the Holy Land at the beginning of the fourteenth century, they occupied Rhodes, which they held into the sixteenth century, when their headquarters moved to Malta. Branches of the order existed throughout Europe, and it is the English branch in the fifteenth and sixteenth centuries that is examined here. Among the major subjects researched by O'Malley are the recruitment of members of the Hospital and their family ties; the operation of the order's career structure; the administration of its estates; its provision of spiritual and charitable services; and the publicity and logistical support it provided for the holy war carried on by its headquarters against the Ottoman Turks. It is argued that the English Hospitallers in particular took their military and financial duties to the order very seriously, making a major contribution to the Hospital's operations in the Mediterranean as a result. They were able to do so because they were wealthy, had close family and other ties with gentle and mercantile society, and above all because their activities had royal support. Where this was lacking or ineffective, as in Ireland, the Hospital might become the plaything of local interests eager to exploit its estates, and its wider functions might be neglected. Consequently the heart of the book lies in an extended discussion of the relationship between senior Hospitaller officers and the governing authorities of Britain and Ireland. It is concluded that rulers were generally supportive of the order's activities, but within strict limits, particularly in matters concerning appointments, the size of payments to the east, and the movement and foreign allegiances of senior brethren. When these limits were breached, or at times of political or religious sensitivity such as the 1460s and 1530s, the Hospital's personnel and estates would suffer. In addition, more general areas of historical debate are illuminated such as those concerning the relationship between late medieval societies and the religious orders; 'British' attitudes to Christendom and holy war, and the rights of rulers over their subjects. This is the first such book to be based on archival records in both Britain and Malta, and will make a major contribution to understanding the order's European network, its place in the ordering of Latin Christendom, and in particular its role in late medieval British and Irish society.

Unlike their sometime rivals the Templars, the Order of St John of the Hospital of Jerusalem (or the Hospitallers as they are better known) was not created as a result of the First Crusade in 1099: rather, it was probably established by a group of Italian merchants from Amalfi in the mid-11th century. However, as a consequence of the crusading movement, the Hospitallers became recognised experts in the military capabilities of opposing Islamic armies. This book, the first of two to examine the lifestyle, experiences and military role of the Hospitaller knight, covers the period from the foundation of the order to the invasion of Rhodes in 1306.

A study of how the major military religious orders of the 12th and 13th century were viewed by the rulers, the clergy, the laity, and themselves. Also considers the representation of them in literary sources and legend. Other orders are also mentioned when there is information about attitudes toward them, but by far the most evidence is for the three. Adapted from Nicholson's 1989 Ph.D. thesis for the University of Leicester. Acidic paper. Distributed in the US by St.

Get to know the Knights Hospitaller, lesser known than the Knights Templar, the Hospitaller were nevertheless heroic and among the bravest of all the knights orders that fought for their faith during the Crusades. And they still stand strong to this day, helping those in need. Many of us have grown up with tales of knights in shining armor who arrived just at the nick of time to save the day, of selfless warriors who would give their own lives in the service of others. For most of us, these are just tales from someone's fanciful imagination. But the truth is, there was indeed an order of selfless knights who would ride to the rescue of the weak and routinely face down insurmountable odds. They were called the Knights Hospitaller. Here we will examine the world's most prolific military order, which began its life out of a hospital in the Middle East at the time of the Crusades. The Hospitallers were brave and more than willing to extend their hospitality to those who needed it most. They were also quite mysterious. There is still much about the Hospitallers that remains unknown and surrounded in intrigue. This book takes a look at the long history of the Hospitallers and the mystique and mystery that surrounds them.
