Home Furnaces & Heating ...*

Hey guys I'm not a homeowner. I'm a 313A refrigeration mechanic and G2 gas license holder (soon to be G1). I'm working on an older Clare gas furnace. The pressure switch is intermittently making and breaking. There is no rating listed on it so I can't even test it properly, nor can I replace it without knowing the proper rating. I'm running about $-0.65''$ fairly steadily.
