The e-cigarette  
business has thrived  
since it started. Last  
year, net sales were  
in the low \$100  
millions, while this  
year, market experts  
predict that net sales  
will reach as high as  
\$1.7 billion. By 2015,  
the market will still be

# Download Free Ultimate Guide

expanding, with net sales over \$3 billion expected. Yet the business is still in its infancy. There is incredible potential for expansion, especially right now. Those same market professionals also believe that the market will continue to expand, with e-cigs outselling traditional

# Download Free Ultimate Guide

cigarettes by 2047.

Does this sound like the kind of opportunity you are looking for?

Why is the e-cigarette

retail business so

appealing? The

answer is simple. E-

cigarettes present an

untapped market

where you can not

only have a business,

but also expand it

around the corner,

# Download Free Ultimate Guide

around the Internet,  
and ultimately, around  
the world. By starting  
an e-cigarette

business now, you  
can get into the  
market before it  
becomes saturated.

Too many products  
are hard to sell. You  
have to take a low  
profit margin on those  
other products  
because everyone

# Download Free Ultimate Guide

else is trying to sell the same thing. The demand is great, but the supply is even greater. And think about this: what else would you sell if you do not sell e-cigarettes? This is the product that will change the way people think about cigarettes. Just try to come up with any

# Download Free Ultimate Guide

other item you could sell that is in the position e-cigs are now. The demand is growing exponentially, and retailers have not yet caught up with it. People are excited about the product, and large companies are, too. The time for e-cig retail is here.
