Concerns over national security, environmental stresses, & high fuel prices have raised interest in reducing oil consumption. Through the Corporate Average Fuel Economy (CAFE) program, the Nat. Highway Safety Admin. (NHTSA) requires cars & light trucks to meet certain fuel economy standards. This report discusses: (1) how CAFE standards are designed to reduce fuel consumption; (2) strengths & weaknesses of the CAFE program & NHTSA’s capabilities; & (3) market-based policies that could complement or replace CAFE. To do this work, the author reviewed recent studies & interviewed leading experts & agency officials. Includes recommendations. Charts & tables.

This standard is established based on the safety risk and certification risk of burglar alarm products. It stipulates the basic principles and requirements for the implementation of mandatory product certification for burglar alarm products.

“This textbook covers all the theory and technology sections that students need to learn in order to pass level 1, 2 and 3 automotive courses from the Institute of Motor Industry, City & Guilds and other exam boards. It has been produced in partnership with ATT Training and is a companion to their online learning resources. Learning is made more enjoyable and effective as the topics in the book are supported with online activities, video footage, assessments and further reading. If you are using ATT Training materials then this is the ideal textbook for your course”--
