(FB2) Which Comes First, Cardio or Weights? by Alex ...

Cardio First (Pro): Research has demonstrated that starting your workout with aerobic exercise may improve aerobic fitness (VO 2max) to a greater extent than beginning with resistance training. Cardio First (Con): At the same time, this structure may decrease your strength and power improvements.

Which Comes First – Cardio or Weights?

if you are only concerned with general fitness, i would do strength training first, cardio afterwards. strength training will be affected by cardio and strength is more difficult to acquire than cardio. appropriate strength training also has built in cardio; if you have done heavy squats and deadlifts for multiple sets of five, you will know this.

Which comes first? Cardio or strength training ...

For instance, if your primary goal is to increase your aerobic endurance or lose body fat, then you should perform cardio first. If your primary goal is to increase muscular strength, then do...

Cardio or Weights: Which Comes First? | Military.com

When it comes to weight loss, it doesn't really matter which you do first—but strength trumps cardio, in terms of general importance, says Strenlicht. Most people will focus on doing more cardio when they're trying to lose weight because it burns more calories, but it's far better to do strength training two to three days a week, he says.

Should You Do Cardio Before or After Weights? | Shape

Abs and cardio go together like peanut butter and jelly, but unlike classic sandwich spreads, it does matter which goes on first. (We'll talk about your PB & J structuring preferences another...

Is It Better to Do Abs or Cardio First? | POPSUGAR Fitness

Let 's do back to my answer of, it depends. Here 's the lowdown: YOUR GOALS: If you have strength goals, specifically, aim for your strength work FIRST. Cardio can follow, or ideally be done on a different day. If you have weight loss goals, I still usually recommend strength before traditional cardio.
