You are not alone. Finally, here is a book that gets to the heart of what professional women want. You've probably been loath to admit it, but like most of us, you have had enough of the sixty-hour workweeks, the day-care dash, and the vacations that never get taken. You don't want to quit, you want to work—but on your own terms and in ways that make it possible to have a life as well. Women have power. In *Womenomics*, journalists Shipman and Kay deal in facts, not stereotypes, providing a fresh perspective on the largely hidden power that women have in today's marketplace. Why? Companies with more women managers are more profitable. Women do more of the buying. A talent shortage looms. Younger generations want to work flexibly, too. It all adds up to a workplace revolution that is great news for professional women—not to mention men and businesses as well. As Brenda Barnes, CEO of Sara Lee, notes: “ Companies need to recognize that this kind of flexibility offers employees the ability to manage and balance their own careers and lives, which in turn improves productivity and employee morale. ” This new way of thinking and working is all the more valuable in a recession, as companies begin offering flexible schedules, four-day workweeks, and extended vacations as a way to avoid layoffs, save costs, and still reward employees. It is personal. *Womenomics* does more than marshal the evidence of this historic shift. It also shows women how to redefine success, be productive, and build satisfying careers that don't require an all-or-nothing lifestyle. Most appealing are the candid personal anecdotes from Shipman's and Kay's own experiences and the stories they have gathered from professional women around the country who are coping with the same issues. It is possible. Shipman and Kay don't waste time on what women can't do or can't have. Instead, they show women how to chart an empowering, exhilarating course to a richer life. Inspiring, practical, and persuasive, *Womenomics* offers a groundbreaking blueprint for changing the way you live and work—with advice, guidance, and fact-based support that proves you don't have to do it all to have it all.

“ A personal, provocative, and challenging book for career women who want less guilt, more life. ”
—Diane Sawyer *Womenomics*, the groundbreaking New York Times bestseller by Claire Shipman and Katty Kay, is an invaluable guide for this generation of professional women, provide knowledgeable advice on how to “ Work Less, Achieve More, Live Better. ” Shipman and Kay, two TV journalists well acquainted with the stress of the workplace, describe the new economic trends that offer today ’ s overworked working women more professional and personal choices than ever before. At last, you no longer have to do it all to have it all—*Womenomics* shows you how.

The Daily Show with Jon Stewart and The Colbert Report have attracted much interest in recent years from popular audiences as well as scholars in various disciplines. Both Jon Stewart and Stephen Colbert have been named on Time magazine ’ s list of the most influential people in the world. The ten essays in this interdisciplinary collection explore the issues engendered by the popularity of entertainment news, including the role of satire in politics, the declining level of trust in traditional sources of media, the shows ’ cathartic or informational function, and the ways in which these shows influence public opinion. Instructors considering this book for use in a course may request an examination copy here.

There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. *168 Hours* is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.

Master the human relation skills you need to become successful in today's workplace with one of the most widely used human relations texts available. *EFFECTIVE HUMAN RELATIONS* incorporates hundreds of examples of real human relations issues and practices in successful companies. Presents fresh research and powerful stories to give voice to a new generation of women driven by challenge and change Offers compelling advice on how to make wandering a life strategy, not just a series of unplanned events Includes probing questions and thought-provoking exercises to help readers find peace in life's chaos and confusion 2011 Axiom Award Gold Medal winner in the category of Women in Business There ' s a new generation of high-achieving women today—confident, ambitious, accomplished, driven. And yet, as master coach Marcia Reynolds discovered, many of them are also anxious, discontented, and frustrated. They ' re constantly questioning their purpose, juggling multiple roles, and reevaluating their goals. As a result they ' re restless—they move from job to job, from challenge to challenge, almost on impulse. They ' re wander women. Existing personal growth books, so focused on empowerment and encouragement, can ' t help these women. They don ' t need to find their voice—they know how to roar. They don ' t expect balance in their lives—but they long to find peace in the chaos. They aren ' t necessarily focused on gaining a seat in the boardroom—they want projects that mean something or businesses they run on their own. Reynolds helps wander women understand the roots of their restlessness and make their wandering a conscious strategy, not a reaction. Drawing on extensive research and interviews she illuminates the needs that drive their decisions and the core assumptions that lock them into rigid perfectionist patterns. She offers a wealth of exercises and practices that will enable wander women to reset their mental programming, discover new ways of finding direction, and thoughtfully choose and plan their futures, whether they climb the corporate ladder, find satisfaction below the glass ceiling, or set out on their own. For every woman plagued by frustration and self-doubt— “ Will what I ' ve done ever feel good enough? ” —Wander Woman sets the stage to uncover the answers to life ' s tough questions about meaning and purpose, significance and value, and the legacy you can leave from a life lived well.

Unleash your leadership by identifying and overcoming the limitations you place on yourself in the workplace. Women are called by God to flourish in areas of leadership. And for the first time in modern history, women are making their way into strategic positions of influence and leadership within the ministry, public, corporate, charity and voluntary sectors. Certainly, there are still external disadvantages that women leaders face in the professional world, and there's still a lot of work to do. But there are internal hinderances, too, and those you can take charge of today. In *7 Deadly Sins of Women in Leadership*, Kate Coleman considers what lies at the root of the many challenges facing today's leaders—women and men—and proposes ways of dealing with them. Effective leadership starts with you. Based on her 35 years of leadership experience, Kate explains how you can: Overcome limiting self-perceptions Establish boundaries Develop a tailor-made personal vision Cultivate a healthy work/life rhythm Stop being a people-pleaser Learn to confront not collude Be intentional with your inner circle Written for every leader from any sector or gender (men could learn a few things from this book too), this proven and practical guidebook will enable you to identify and overcome self-defeating patterns of behavior, in ways that will radically transform your leadership.

Personal Balance. Career Success. Financial Strength. The Plan provides readers with a proven approach to creating a full and satisfying life. Applying the same time-tested methods used by the world's most successful organizations and individuals, readers will learn how to take control of their personal, career and financial lives with straightforward step-by-step approach. The Plan helps readers break free of both conscious and unconscious behaviors that may be preventing them from achieving their goals.

For most of recorded history, men have held nearly all of the most powerful leadership positions. Today, although women occupy an increasing percentage of leadership positions, in America they hold less than a fifth of positions in both the public and private sectors. The United States ranks 78th in the world for women's representation in political office. In politics, although women constitute a majority of the electorate, they account for only 18 percent of Congress, 10 percent of governors, and 12 percent of mayors of the nation's 100 largest cities. In academia, women account for a majority of college

Where To Download Womenomics Write Your Own Rules For Success Claire Shipman

graduates, but only about a quarter of full professors and university presidents. In law, women are almost half of law school graduates, but only 17 percent of the equity partners of major firms, and 22 percent of Fortune 500 general counsels. In business, women constitute a third of MBA graduates, but only 5 percent of Fortune 500 CEOs. In *Women and Leadership*, the eminent legal scholar Deborah L. Rhode focuses on women's underrepresentation in leadership roles and asks why it persists and what we can do about it. Although organizations generally stand to gain from increasing gender equity in leadership, women's underrepresentation is persistent and pervasive. Rhode explores the reasons, including women's family roles, unconscious gender bias, and exclusion from professional development networks. She stresses that we cannot address the problem at the individual level; instead, she argues that we need broad-based strategies that address the deep-seated structural and cultural conditions facing women. She surveys a range of professions-politics, management, law, and academia-and draws from a survey of prominent women to develop solutions that can successfully chip away at the imbalance. These include developing robust women-to-women networks, enacting laws and policies that address work/life imbalances, and training programs that start at an earlier age. Rhode's clear exploration of the leadership gap and her compelling policy prescriptions will make this an essential book for anyone interested in leveling the playing field for women leaders in America.

Skin Care Practices and Clinical Protocols is a critical resource for skin care professionals interested in expanding their current knowledge and technical skills, whether a long-term practitioner learning new techniques and technologies, or students learning beyond the fundamentals. This text includes interviews with professionals spanning four decades of esthetic education and experiences in a variety of settings ranging from travel and tourism, salons and spas to the medical office. The global population's interest in appearance continues to drive the skin care market. As a result, the demand for highly trained skin care professionals serving in a variety of environments has increased. *Skin Care Practices and Clinical Protocols* serves as an invaluable working resource in the classroom, the treatment room and the meeting room.
